\*\* Spring bred females were pregnancy examined by Dr. Zach Westoff, DVM - Le Mars Vet Clinic.

Every spring bred female was confirmed pregnant. The above dates are an estimate and are not guaranteed.

\*\* Spring Bred Cow Lots: 3, 4, 17, 18, 23, 28, 30, 40, 41, 44, 45, 47 & 48 (+ several comm. hfrs) were not bred AI.

An "Early Pasture" designation was given if the female was not AI bred, but was bred early in her pasture exposure.

\*\* The Fall Bred Cows will be exposed to the bull up until just before sale day.

Therefore, it is too soon for an accurate pregnancy evaluation to be performed.
