*All these females were pregnancy examined by Dr. Randall Anderson, DVM - Plymouth Animal Health Vet Clinic. Every spring bred female was confirmed pregnant unless noted otherwise. The above dates are an estimate and are not guaranteed.

*Spring Bred Cow Lots: 2, 5, 6, 7, 9, 11, 15, 17, 18, 19, 20, 25, 27, 28, 29, 30, 31, & 34 were not bred AI. An "Early Pasture" designation was given if the vet believed the cow was bred early in her pasture exposure

*The Fall Bred Cows will be exposed to the bull up until just before sale day. Therefore, it is too soon for an accurate pregnancy evaluation to be performed.

*All bulls have passed a semen evaluation conducted by Shnurman Sire Service. We recommend you have your own vet re-evaluate every bull that you purchase before turning them out.
